

Alvin and Carolyn Ross

To whom it may concern:

Re: Testimonial

First and foremost, Carol and I would like to thank Tom and all of his team at TJC Construction for building us the cottage of our dreams. We have spent close to 40 years at our cottage and making the decision to rebuild was not an easy one – but we had confidence in Tom and he delivered.

Having a cottage built when you are over 2 hours away presents its own set of challenges, but Tom and Ken made the process easy with excellent communication, regular meetings, timely replies to questions and quickly addressing concerns or needed changes.

Every aspect of the cottage was completed professionally with top quality materials and workmanship. Even now we look around and go “WOW” – the same reaction friends and family have when they see the cottage for the first time.

We highly recommend TJC Construction to anyone looking for a top quality builder.

Regards,

Alvin Ross
